CONFIDENCE STRAIGHTAWAY

MyLab™Omega is a high-end, portable, multidisciplinary ultrasound unit with an innovative and ergonomic design. It delivers the highest level of performance possible for any application.

It offers extreme agility thanks to its onboard dual connector (4 with additional trolley multi-connector adapter), and extremely flexible with unique built-in touch screen in addition to its rotating and tilting monitor.

The innovative onboard technologies include advanced zero-click automation tools. Such innovation supplies the ultrasound system with key elements to accelerate usability and improve diagnostic efficiency. Built on a new engine and operated by Windows™ 10, it delivers new levels of accuracy, quality, versatility, and value.

MOBILITY

MyLab™Omega can offer a large variety of mobile solutions to meet any possible need, application, and location.

The system can be simply operated placed on a desk or installed on a versatile height-adjustable trolley.

Furthermore, the system has an optional foldable trolley that can be easily transported in a car or transformer in back-pack solution. A trolley completes the system mobile solutions.

CONNECTIVITY STRAIGHTAWAY

In a fast-changing world where the value of information is increased by the possibility of sharing it, the highest level of clinical data management has to be offered to meet today's medical needs. The worldwide medical imaging community has entered a new era of communication opportunities.

Based on Windows™ 10, these developments enable imaging professionals to reach diagnoses more effectively and efficiently, which can in turn raise the level of overall healthcare provided.
